Hey Angela,

I just saw the adjustment. Thanks. Attached is the 11.13.18.

Thanks
Gary Moore

Gary,

The adjustment for the two hours on 11/09/18 for Chase, Joe Mike and Justin from equipment operator to laborer has already been made per Don's request on the 1900-55 for 11/13/18 which I sent to you earlier this evening.

Thanks,
Angela Harbin

Angela/Don:

I signed this 1900-55 but I need you to make adjustments for the following:

You can not charge Chase, Joe Mike, or Justin as equipment operators. Please see the below. Also,

you need to confirm that Joe Mike has a CDL to be charged as a Truck Driver (I assume he does as you refer to him as a truck driver but you need to verify and you need to verify that the water truck requires a CDL(I assume it does).

LABORER (OSHA 1910-120 40-Hour Trained)

Performs labor related to sampling and cleanup of hazardous wastes. Applies technical skills in handling hazardous substances. Trained for work using all levels of personal protective equipment. May also perform general activities involved in hazardous waste site control, including the operation of support equipment such as generators, air compressors, pumps, outboard motors, **unloaders**, sweepers, air blowers, etc.

EQUIPMENT OPERATOR

Meets OSHA/DOT minimum training requirements to operate heavy equipment, such as, but not limited to, backhoes, excavators, dozers, and loaders. Experienced in hazardous waste equipment operations; ie does not cross- contaminate areas, does not remove more soil than required for the cleanup effort, onsite demonstrated aptitude for equipment operations. Trained for work in all levels of personal protective equipment.

TRUCK DRIVER

Must have all the applicable state and Federal Department of Transportation motor vehicle operator's licenses. Operates trucks used to transport temporary structures, equipment, materials, and supplies, as well as oil, petroleum, hazardous substances and hazardous wastes onto and off of a response site.
